

WE KEEP YOU IN TOUCH
WITH YOUR CUSTOMERS

STRECK
TRANSPORT

“People shape services!”

“We know our customers and speak their language! Together we develop targeted and innovative solutions you will be enthusiastic about. We always put customer benefit first. Only an attitude that seeks the customer’s advantage will benefit our company, as well.”

Herbert Boll,
CEO

For the satisfaction of your customers

Streck Transport has its origin in the triangle of Germany, France and Switzerland and has successfully combined innovation with tradition for over 50 years, which is also a result of continuous staff education and training. Today Streck is not only the regional leader but also operates worldwide. It is integrated into a network of leading co-operations. Being a medium-sized, owner managed international forwarding and logistics company, Streck Transport has kept its independence despite globalisation. We like challenges and we will gladly accomplish any tasks you give us. Our ultimate ambition is quality that will convince you. No matter when, no matter where - we will keep you in touch with your customers!

“Forwarding is awesome!”

“For nearly 30 years, I have been working at Streck Transport handling land transports. The daily customer contact, the different people and the constantly changing requirements are exactly what I like. I am only satisfied when our customers are and when all land transports have been carried out smoothly!”

Heidi Mentele,
with Streck Transport
for nearly 30 years.

FOR SMOOTH GROUND TRAFFIC...

**Flexible transport solutions
geared to your needs**

A wide range of transportation solution is available to meet your requirements. Express service when urgent, service for just-in-time delivery or standard service for cost-conscious transportations. Numerous additional services complete the portfolio and ensure smooth handling of your shipments!

***“Wind North / East, runway 03,
up here I hear the engines ...”***

Reinhard Mey

“When I was young I often heard this song and it might even have led me to my dream job. For 30 years now, I have enjoyed coming up with the best solutions for the daily challenges. The most important thing for me is to satisfy customers completely at all times!”

Alex Witzigmann,
with Streck Transport for 30 years.

**YOU DON'T WANT YOUR
AIRFREIGHT TO BE SHORT-WINDED...**

The direct connection around the globe

Be it groupage consignment or chartering a cargo plane: With us your airfreight shipments will definitely take off! A comprehensive portfolio is available to suit the most varied requirements.

An extensive network connects you with all the business centres worldwide. IATA direct traffics, groupage traffic worldwide, dangerous goods management, LC- service, compliance check, electronic export and a lot more will be the wind beneath your wings!

“Fancy some sea?”

“Already in school I knew what kind of career I wanted to pursue: I wanted to be in contact with other people, countries and cultures. As a part of globalisation the traditional metier of seafaring is in greater demand than ever. Every day is different and will bring new challenges in meeting our customers’ needs. I enjoy making sure your sea freight does not sink (into oblivion)!”

Marina Danner,
with Streck Transport
for more than 8 years.

TO KEEP YOUR SEA FREIGHT FROM SINKING...

Connecting all continents!

Your overseas shipments are not under much time pressure? Still you need flexible solutions for your shipments? Then we are your forwarder because we will keep your shipments afloat! Streck Transport offers FCL-feeder traffic to all ports of departure with all modes of transportation, FCL-service worldwide, LCL-groupage containers to all main ports, door/door logistics, packaging, dangerous goods management and a lot more to keep your sea freight from sinking.

“Logistics are all about using your mind!”

“Logistics keep gaining importance. Already today, the share of logistics in the forwarding industry is high and will increase further. The different requirements from the most varied economic sectors are always an interesting challenge for me. My ambition for our customers is to make it a logistic precision landing every time!”

Stephen Kraus,
with Streck Transport after
completing his studies.

**SO YOU MAKE IT A
LOGISTIC PRECISION LANDING...**

Stick to the essentials!

Create free space for your company. Be it a buffer for promotion business, short-term orders, inventory peaks and long-term external warehousing or permanent outsourcing of your entire logistics activities. It does not matter if we render our logistics services at your premises or our logistics centres we will always make it a logistic precision landing for you.

OUR PORTFOLIO AT A GLANCE

GROUND TRAFFIC:

Domestic and European groupage, partial and truck loads, and customs service. Streck Transport forwards more than 1 million land shipments annually. Optimum connections through daily time-phased direct and hub traffic in Germany and Switzerland to destinations throughout Europe.

Together with our cooperation partners System Alliance, System Alliance Europe and SystemPlus we reach every corner of Europe with convincing running periods.

AIR- AND SEA FREIGHT:

By air and sea freight, Streck Transport handles more than 60,000 shipments per year, making sure we are among the top 20 IATA agents in Germany!

Our contacts at all German and Swiss locations will keep you in touch with your shipments worldwide.

LOGISTICS, OUTSOURCING, FULLFILLMENT:

Whether you need storage, additional operational or administrative services, a bonded warehouse, hazardous material storage, supply chain management or logistics consulting – we will make it happen! More than 80,000 pallet spaces and more than 70,000 sqm of storage space speak for themselves.

CUSTOMS:

The customs clearance is still an important part in the import and export business. Benefit from our long-standing experience and good connections to customs offices.

A bonded warehouse is the right solution for all incoming goods not immediately cleared. We provide this service at all Streck Transport logistics sites and, if desired, including the respective customs handling for shipment, as well as the final clearance. We also offer our customs clearance as a stand-alone service.

PROJECT MANAGEMENT:

Implement changes efficiently with our project management. For professional project management is a significant factor in the success of complex projects. Benefit from the long-standing experience and continuous improvement of Streck Transport project management. Our project managers will support you with result-oriented methods and practical models.

TRANSPORT OF DANGEROUS GOODS:

Whether land, air or sea transport, we have the right solution for your dangerous goods. Dangerous goods handling according to ADR (road), DGR (air) and IMCO (sea). Supplementary we provide special warehouses for the storage of hazardous goods.
